Cindy, sorry for such short notice, but things are coming down fairly fast on Portland harbor. I know next week is a big one for you all, blumenuaers office & our office would like to get congressional staff on the phone so you can brief us on what is coming down the pike..

Do you know Dennis' plans for letting the Members know? are EPA folks in DC briefing our folks back there. & do you know what day it will be coming out??

We could get a call in number & I think all offices staffs would like to participate. Who would you want to make available thurs or Friday that could brief us?
